First Friday ART WALK

Featuring Paintings by Lily Bobek

Artist's Statement

Originally hailing from New York, Lily now resides on Bainbridge Island, where she expresses her unique and colorful perspective on life through her nature-inspired paintings. She will be showing her work in our office gallery through the month of July.

Lily paints with acrylics on canvas; she loves the vibrancy and aliveness of the rich pigments. She applies multiple layers of paint to create intricate and wondrous spaces and dimensions through intention as well as letting go into the spontaneity of the moment. With each layer, the painting becomes an explorative adventure revealing an interplay of vivid colors, patterns and shapes. Lily follows her intuition and the results widely range from peacefully tranquil to radiantly dynamic. She loves capturing her colorful visions, bringing them to life and sharing them.

"I'm greatly inspired by nature. There's no end to the depth of beauty, colors and intricacies I find there. Natural surroundings send me on creative journeys I always enjoy, especially when I don't have a set destination."
